

How to migrate v2011 protection to v2012 (hardware key)?

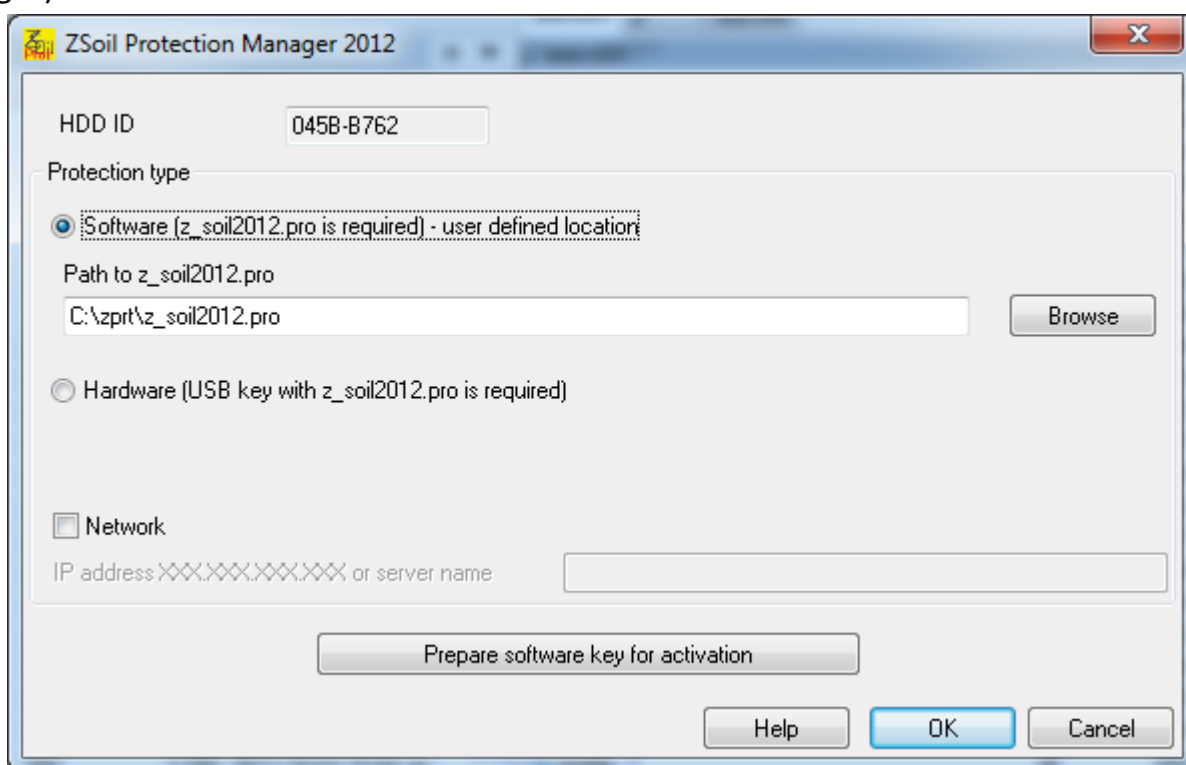

This activation procedure concerns the users who have already activated the version v2011

- 1) Please send *z_soil2011.pro* file from the USB key to ZACE (zsoil@zace.com) requesting for an activation of the version v2012.
- 2) On return, the user will be provided with the protection key (*z_soil2012.pro* file) from ZACE Ltd.
- 3) Once *z_soil2012.pro* is copied to the USB key, the version v2012 is fully activated

How to migrate v2011 protection to v2012 (software key)?

This activation procedure concerns the users who have already activated the version v2011

- 1) Please send `z_soil2011.pro` to ZACE (zsoil@zace.com) requesting for an activation of the version v2012. If location of `z_soil2011.pro` was not detected by Z_Soil Protection Manager, the file can be found in:
"`c:\Documents and Settings\All Users\Application Data\Z_Soil v2011\Full\z_soil2011.pro`"
- 2) ZACE Ltd. Will provide the user with a valid protection key (`z_soil2012.pro` file) which should be copied to the USB key
- 3) Create a folder on your hard disk (e.g. `c:\zpvt`)
- 4) Copy `z_soil2012.pro` into the created folder
- 5) Run the ZSoil Protection Manager (Start\All Programs\ZSoil 2012\Tools\ZSoil Protection Manager)

- 6) Choose the Protection type as Software one and press Browse button in order to define the location of `z_soil2012.pro`
- 7) Please close ZSoil Protection Manager with OK button
- 8) At this moment your version is fully operational
