How to activate the license for a single user version protected with HASP HL protection key ?

HASP HL key

How to activate the license for a network version protected with HASP HL Net protection key ?
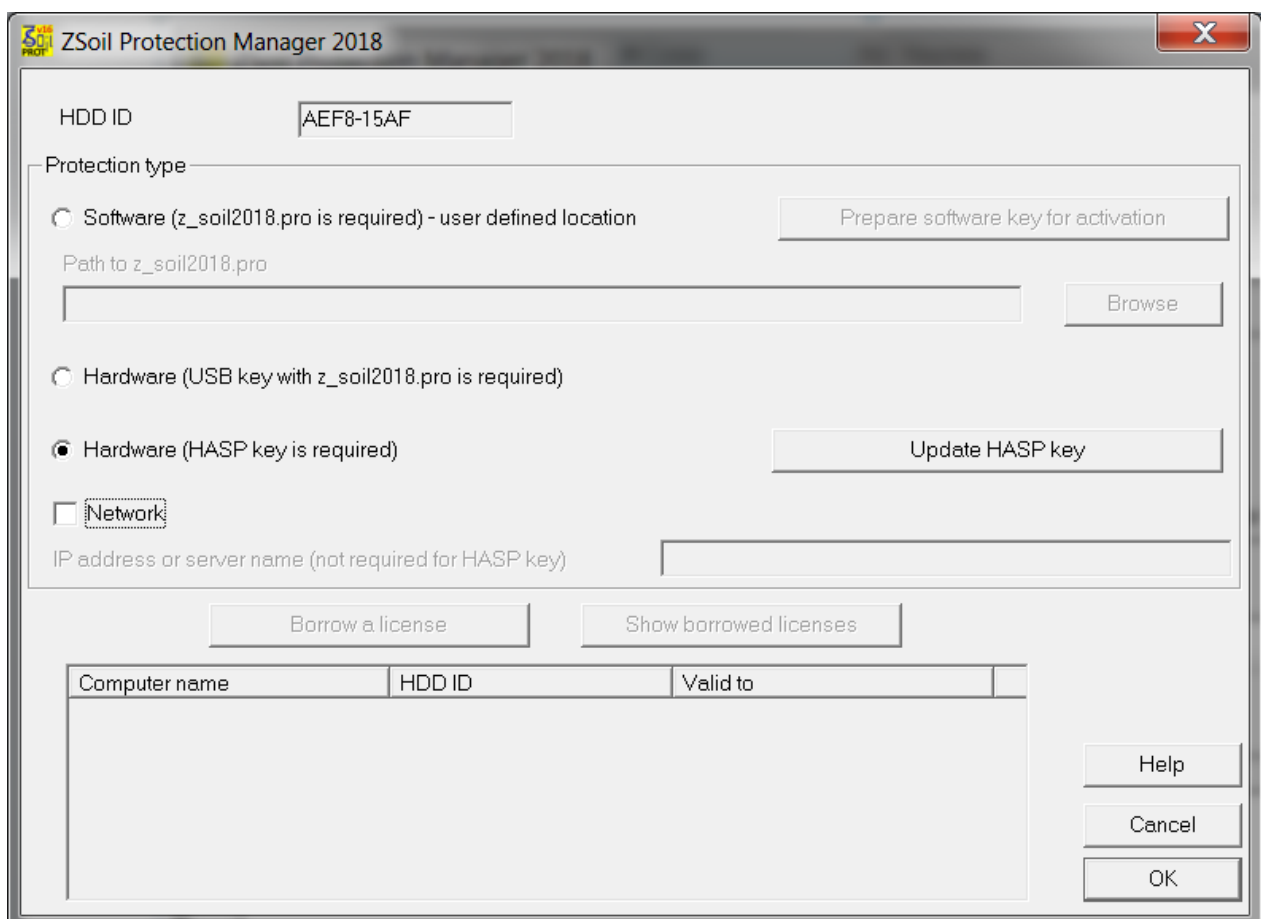

HASP HL key installation

How to activate the software key ?

How to activate the license for a single user version protected with HASP HL protection key ?

 HASP HL key

1) Download from www.zsoil.com/downloads/HASPUserSetup.exe and install drivers for HASP HL protection key.

2) Run the ZSoil Protection Manager
   (Start\All Programs\ZSoil 2018\Tools\ ZSoil Protection Manager)

3) Choose the **Hardware (HASP key is required)** protection type
4) Please close ZSoil Protection Manager with OK button

How to activate the license for a network version protected with
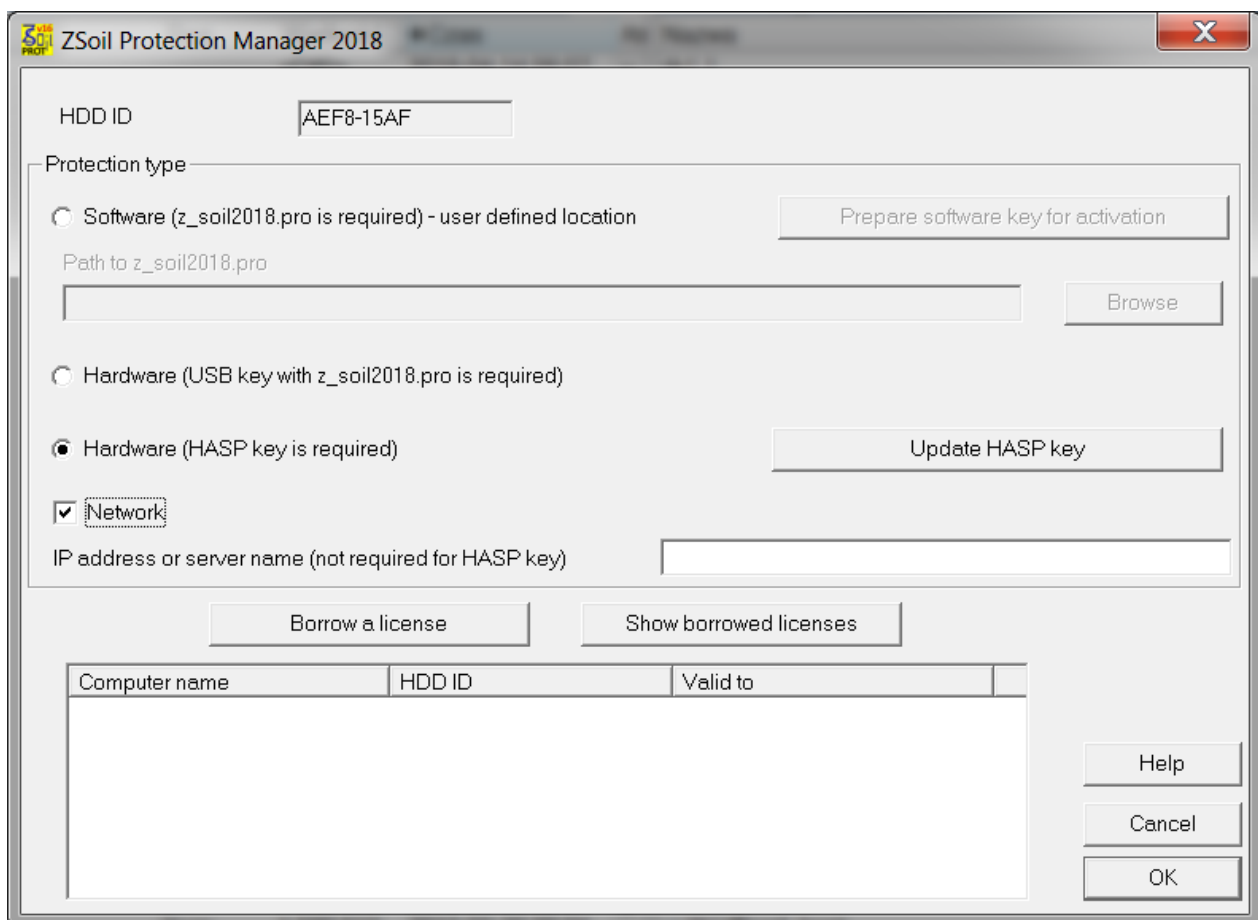

HASP HL Net protection key ?
 HASP HL Net key

1) Download from www.zsoil.com/downloads/HASPUserSetup.exe and install drivers for HASP HL protection key.

    Please note that HASP network dongle uses TCP/UDP port 1947 for local (LAN only) communication. This port must not be blocked in order for a station to access the network license.

2) Run the ZSoil Protection Manager
   (Start\All Programs\ZSoil 2018\Tools\ ZSoil Protection Manager)

3) Choose the **Hardware (HASP key is required)** protection type and check **Network** flag
4) Please close ZSoil Protection Manager with OK button

5) Status of the HASP key is monitored by Sentinel Admin Control Center.
   Run **http://localhost:1947** in a web browser in order to display current status of the
   HASP key.
How to update HASP HL Net protection key ?

HASP HL Net key

1) Run the ZSoil Protection Manager
   (Start\All Programs\ZSoil 2018\Tools\ ZSoil Protection Manager)

2) Press "Update HASP key" button

3) Open *.hsp file provided by ZACE
